

Sanghyuk Lee

Gwanak-gu, Seoul, Republic of Korea | starcasso@snu.ac.kr

Currently Interested in Gene-Editing Crop / Artificial Intelligence

EDUCATION

Seoul National University

2027.02 (Expected)

Seoul, Republic of Korea

B.S. in Crop Science and Biotechnology B.B.A in Entrepreneurship

GPA: 3.78/4.30

Relevant Coursework: Crop Breeding, Startup Web Programming, Regression Analysis, Creativity & Innovation

Gwangju Science Academy for the Gifted

2018.03 - 2021.02

Gwangju, Republic of Korea

EXPERIENCE

Vibers AI

2025.05 - 2025.12

Seoul, Republic of Korea

Customer Success Owner (Founding Engineer)

- **Sales & Business Growth:** Directly secured a key enterprise skincare account, expanding the company's active client portfolio by ~12.5% and diversifying the MRR (Monthly Recurring Revenue) base
- **Fundraising & Product Ideation:** Contributed to the 1.1B KRW Seed funding round (Kakao Ventures) by refining product concepts and feature roadmaps for the IR deck, bridging the gap between technical possibilities and business vision
- **GenAI Content Operations:** Executed distinct content initiatives for both social media (25K+ follower brand) and e-commerce (Amazon), deploying custom AI pipelines to generate assets for Instagram feeds and product detail pages
- **B2B SaaS Deployment:** Led the POC deployment of an AI-driven construction SaaS for major firms (e.g., Woomi Construction), reducing eco-friendly architectural design quote generation time by over 90% via automation

BioResearch AI

2023.05 - 2023.08

Seoul, Republic of Korea
